

How to download files sent via Mimecast's Large File Send feature

To Customers and Business Partners, NTT Com DD has stopped using password-protected compressed files (PPAP) and has adopted Mimecast's Large File Send feature as a method of sending files outside the company. Please follow the steps below to download files.

Download procedure

- ① Open the Mimecast Large File Send Instructions attachment. (Depending on your email software, instructions might appear in the body of the email, not as an attachment)
- ② Click on the **「Download Files」** link in the body of the email. The Large File Send portal is opened in your browser.
- ③ Click the **「Get Access Key」** button.
- ④ An access key is emailed to your email address from postmaster@global.ntt (It takes 1-3 minutes)
- ⑤ Copy and paste the access key into the **「Enter Access Key」** field and then click the **「Log In」** button.
- ⑥ Click the **「Download」** button to download the file.
